

## *WORK PLACEMENTS FOR GERMAN TEACHER TRAINEES*

*Karen Keeling has been hosting European Trainee Teachers on Work Experience at Wymondham High for 2 years now. Placements last from 4 weeks- 6 months and it is very much like having a free Foreign Language Assistant. They can be assigned to small group work, one-to-one pupil /teacher support sessions, team teaching, administrative support etc.*

*She even had one student who helped organise a trip then accompanied it! The biggest bonus is that there is absolutely no cost to the school, they just have to create a timetable for the trainee. At Wymondham, she has been congratulated by her Principal for the diversity, support and enrichment that hosting these trainees has brought to the learning experience of the students.*

*Her last student from Germany commented that it was very difficult for them to find a school placement so Karen offered to help and the project was born. She's called it "Interneduk" and there is currently a Facebook page, website (under development), Twitter account - @interneduk and email address: [interneduk@gmail.com](mailto:interneduk@gmail.com)*

*She currently has 3 German trainee teachers looking for work placements in schools after February half term. They are all students of English, some with French, some with Spanish and obviously native German speakers.*

*Please email Karen Keeling at [interneduk@gmail.com](mailto:interneduk@gmail.com) if you're interested in offering a work placement to any of the students*
